# Shaping Canada's top cybersecurity talent

## About us

Cyber Connexion partners with leading organizations to understand your unique talent needs, then curates introductions to a pool of pre-vetted, qualified cybersecurity professionals.

Through these collaborations, Cyber Connexion strengthens Canada's global competitiveness by rapidly transitioning skilled professionals into high-demand careers while increasing workplace diversity.

Our custom and open cohorts are designed to boost technical and business skills, ensuring our graduates are well prepared to thrive in key cybersecurity roles.

### Cybersecurity skills:

- 🔒 Cybersecurity Awareness and Privacy Laws
- 🔒 Computer Networking
- 🔒 Securing Networks
- 🔒 Defensive Security
- 🔒 Cryptography
- 🔒 Identity and Access Management
- 🔒 Privileged Access Management
- 🔒 Risk Management and Business Continuity
- 🔒 Cloud Security

## Ahead of the curve

We continually innovate, iterate and improve on our program to stay on top of the next trends and skills that will shape the future of the industry.

## Learning by doing

We believe in combining technical knowledge with hands-on experience.

## Dedicated to your success

We have built a community of allies who advocate and support each other.

## Committed to excellence

We tap into the Fields Institute network to guarantee that our program upholds the highest standard of academic integrity and excellence.

# Become an Industry Partner

Our team will work with you to understand your talent needs and help match you with your next hire. Joining our community, including Industry Partners [TD Bank](#), [Scotiabank](#), [Tenable](#) and [eSentire](#), grants you access to a growing pool of pre-vetted, talented and highly-skilled graduates.

A new way of hiring

Hire candidates that meet or exceed your recruitment targets. We help you find skilled cybersecurity professionals efficiently and confidently.

Industry-tailored training

We design our training in consultation with your business to ensure learning outcomes reflect the skills you need.

## More Opportunities

### Be a speaker

Participate in our training sessions as an industry expert and/or thought leader. Help empower our students by sharing your work experience in cybersecurity.

### Tap into our networking events

Join us for quarterly networking events where you can meet our talented graduates and explore hiring opportunities.

# Get Started

Let's find new ways to bring value into your organization. We can connect our well-trained and diverse cybersecurity talent to meet your business needs.
